Why Choose Speakeasy?

Getting voice as part of a multimodal data capture solution speeds warehouse tasks, extending your existing telnet and web apps

INPUT QUANTITY

Pick: **11 CS**

Task #:   55
Location: M58-15-F10
Item: 7462523948

Add Voice to Existing Apps

Don't write new voice applications - add voice entry to your current applications

Deploy in Days - ROI in Weeks

Deployments are completed in under 30 days, with an ROI in under 3 months

Boost Your Perfect Order Rate

Speakeasy customers have raised their accuracy rates to over 99.8%

No IT Resources - No Problem!

Customers can deploy Speakeasy with little or no IT resources needed

Minimize Your Training Times

Users will be more productive with as little as 15 minutes of voice training

Ship More Product, Faster

Speakeasy can deliver by tripling the number of picks-per-hour

Savings on Implementation

No additional servers or middleware allows voice-enablement to fit your budget

See why businesses are choosing Ivanti Speakeasy, powered by Wavelink over traditional voice apps:
